

CompuSystems'

CLIENT USER GROUP

The new CompuSystems' Product Management team has formed a Client User Group to guide us in the development of new products and new features for existing products. This user group is your chance to get your voice heard and keep abreast of the latest innovations CompuSystems is bringing to market.

As a member of the user group you will . . .

SNEAK PEAK

Try out new products and new features to existing products before they are released and provide feedback to the product management team

FOCUS GROUP

Participate in a couple of web-based focus groups each year and give your opinion on:

- + Your experiences with CompuSystems' current products
- + CompuSystems' ideas for new products
- + Trade show hot topics and how they are impacting your show

SURVEY

Take an online survey or two on CompuSystems' products and other important industry issues

FACE TIME

There may be some opportunities for face-to-face meetings of the user group; however these will depend on location and availability of the user group members

To participate, please complete and sign the attached form and send to Jann Curtis, Product Development Manager at jann.curtis@compusystems.com or fax to 708-344-9487.
